

Mutt took some dope
and now he's got it.
Gee, where's an Os-
teopath?

(Copyrighted, 1911, I. N. S.)

MORE THAN THE ENTIRE Population of South Dakota

Are thrown into
Tuberculosis, Cancers
and Chronic Diseases
each year and die with
them by these stimu-
lants and poisons and
anti-toxin excretion
from diseased animals.
Are you going to be
the next, or will you
get wise and go to the
Osteopaths and get well
with no danger?

Some morning you will wake up with a pain in your chest and Tuberculosis has got you, or your stomach feels wrong and a Cancer has you, and you will realize you have let that trouble of yours run too long; and it is too late. It is criminal to neglect to go to the Osteopaths and have it fixed up right now. For there is no danger of Cancer, Tuberculosis and chronic diseases, for Medical Research says exhausted nerves leaving the stagnant blood in the body caused by taking stimulants and drugs causes them all.

More than the entire inhabitants of South Dakota die each year in the prime of life from Tuberculosis and Cancer. While the Osteopaths only lose one in a thousand, and they have handled eight thousand cases without giving a drop of drugs or using the knife. 1200 cases Female Troubles. Go and try them first and you will never have need for any other way. No wonder the Medical Doctors were afraid to compete for \$40,000 with them to prove to humanity who was best able to cope with diseases.

Would you rather be sold to highest bidder to be carved up needlessly and thrown into the dead wagon, just because the family doctor needed the money and scared you into an operation, or be one of the 1200 cases of female troubles and appendicitis cured at the Dr. Still Osteopathic Infirmary without the use of a knife or drop of drugs. 8000 cases every kind of disease with a loss of only eight. Just think of that will you, and no danger of consumption or typhoid fever or cancer as they do not exhaust the nerves.

T. Still's American School
of Osteopathy, Kirks-
ville, Missouri.

HOW WILL IT BE?

By Ella Wheeler Wilcox

HOW will it be when one of us alone
Goes on that strange, last journey of the soul,
That voyage on which no comradeship is known?
Will our dear sea sing in the old sweet tone,
Though one sits stricken where its billows roll?
Will space be dumb, or from the mystic pole
Will whisperings of love be backward blown?

WHEN our united lives are wrenched apart,
And day no more means sweet companionship;
When fervent night and lovely, languorous dawn
Are only memories to one sad heart,
And but in dreams fond kisses burn the lip,
Dear God, how can this same fair world move on?
